WORK EXPERIENCE

N-PAX CEBU CORPORATION Hernan Cortes, Mandaue City
Junior Software Engineer Aug 2025 - Present

- Maintained and enhanced enterprise ERP modules, supporting core business operations and internal workflows through reliable, well-structured system components.
- Implemented and improved ERP features such as data entry screens, reports, and transaction workflows, integrating with existing databases and backend services.
- Collaborated with cross-functional teams to analyze requirements, troubleshoot production issues, and improve system stability, usability, and maintainability.

QUESTNOVA SYSTEMS CORPORATION Remote
Frontend Developer - Internship Jan 2025 - May 2025

- Developed a company website using modern frontend frameworks, implementing responsive layouts, reusable components, and clean UI patterns for desktop and mobile. *https://questnova.com/*
- Developed on an ERP web application, building data tables, dynamic forms, filters, pagination, and dashboards, and integrating with backend APIs to support full CRUD operations and business workflows.
- Collaborated with seniors and backend developers to translate requirements into functional UI features, implemented role-based behavior, handled validation and error states, and improved overall usability and maintainability.

PROJECTS

HARMONY HOUSE - *Freelance*

- Built a reservation platform for KTV rooms with features to view availability, book time slots, and handle cancellations.
- Designed a user-friendly, responsive interface with backend logic for session and conflict management.
- Developed and maintained RESTful APIs to manage core business logic, handling data processing, and validation.
